Experience

Inspect Now App

- Developed a Web Application as part of a 5 person team.
- Application is designed to be used by professional home inspectors to help streamline inspections and generate customer reports.
- Customer reports completed are delivered in PDF.
- Technologies Used: MERN Stack (MongoDB, Express, React, Node), Java Web Tokens, Bootstrap.

Food Dad-A-Base App

- Developed a web Application as part of a 4 person team.
- Application is designed to be used by individuals who want to learn new cooking recipes.
- Uses API's to find recipes based on ingredients the user has available with the goal of allowing the user to create new recipes to the database.
- Technologies Used: MySql, Express, Node, Handlebars, Edamame API, HTML 5, CSS.

Pub-Lish App

- Developed web page as part of a 4 person team.
- Page for use by people trying to locate local bars and pubs for setting up a Pub Crawl.
- Technologies used: Express, Open Brewery BD API, Mapbox API, Bulma, HTML 5, CSS.
